 Anton Nageh

 My Portfolio

Summary

Front-End & Cross-Platform Mobile Developer with hands-on experience building scalable web and mobile applications using React.js, Next.js, React Native, Firebase, and Supabase. Experienced in building production-style applications with real-time data, secure authentication, responsive UI systems, and offline-first architecture. Strong focus on clean code, performance optimization, and user-centered product development.

Skills

Core Frontend: React.js, Next.js, JavaScript, TypeScript, HTML, CSS, TailwindCSS

Mobile: React Native, Expo

Backend : Firebase, Firestore, Supabase

Tools: Git, GitHub, REST APIs, Axios, Redux Toolkit

Other Exposure: SvelteKit, Astro.js, Flutter

Experience

2025/03 – 2025/07 Cairo, Egypt.	iTi Trainee, Front-end & Cross platform Mobile developer Information Technology Institute • Built responsive web and mobile applications using React.js, React Native, and Firebase • Integrated REST APIs and implemented scalable state management patterns • Developed reusable UI components and responsive layouts using TailwindCSS • Collaborated in Agile team workflows using Git, code reviews, and sprint delivery
2022/10 – 2023/07	IT-Web member IEEE-CUSB • Maintained and improved the main website for the organization • Collaborated with UI/UX designers and backend developers to deliver production-ready features
2021/10 – 2022/07	IT-Web Instructor Pixels Egypt - Helwan university • Mentored newcomers in frontend web development fundamentals • Delivered technical guidance on HTML, CSS, JavaScript, and React concepts

Projects

2025/11 – 2026/02	Findmotos  Mobile Marketplace Application • Developed a cross-platform vehicle marketplace application supporting iOS, Android, and Web • Implemented advanced search and filtering across 1000+ listings • Built offline-first experience with connectivity-aware caching and local persistence • Improved application performance through request optimization and reusable component architecture • Added bilingual support with Arabic RTL layout compatibility
-------------------	---

2025/07 – 2025/10	Secured – Mobile Logistics & Order Tracking App <i>Built with React Native & Supabase</i> • Built a logistics application for secure product movement and warehouse delivery workflows • Implemented real-time order tracking and secure product handling flows • Integrated Supabase backend services for authentication and data operations
2025/07 – 2025/10	Full-Stack Warehouse Management System <i>Built with: React.js, Next.js, Firebase (Auth, Firestore, Cloud Functions), TailwindCSS, TanStack Router, QR/Barcode Integration</i> • Built a warehouse system with role-based access control for admins, clients, and handlers • Developed QR / barcode-based workflows for product placement and retrieval • Implemented product lifecycle tracking, order bundles, and real-time status updates • Designed secure Firestore schema and scalable serverless backend workflows

Education

2018/10 – 2023/07 Cairo, Egypt	Engineering, Electronics and Communications dept. <i>Institute of Aviation Engineering and Technology</i>
